**SOWK3096. Solution-focused therapy (6 credits)**

“Judging by its popularity, solution-focused therapy may be the treatment for our times. Now one of the most widely used psychotherapy approaches in the world (Trepper, Dolan, McCollum, & Nelson, 2006) … Its pragmatic focus on coping, rather than curing, has made it applicable to almost any problem seen by therapist.” (Nichols, & Schwartz, 2008, p.368) Solution-focused therapy advocates that the core role of a therapist is to help client to construct their solution instead of figure out what are the causes of the problem. Solution-focused therapists argue that it isn’t necessary to know what causes problems in order to make things better. Their emphasis is on what works, not what doesn’t work. Therefore, it is the solution talk, not problem talk, is the direction of solution focused therapists. The course will introduce the theoretical background, basic assumptions, core working principles, and hallmark techniques of the Solution-focused therapy.

University education is different from that in secondary school. With the assistance of the teachers, students are expected to learn to become adults who are responsible to and take initiative for their own learning. However, to promote positive learning attitudes among students, some principles have to be observed. The followings are Department policies relating to student learning:

### 3.1 Class Attendance

1. Classroom attendance is an integral aspect of a student's learning. Students are expected to attend all classes and be on time.

2. Tutorial/Seminar/workshop attendance is compulsory. Roll-call and sanctions for unreasonable lateness beyond 15 minutes will be carried out. Regarding absence from tutorials/seminars/ workshops, students should explain to the concerned course teachers in writing. If possible, prior notice should be given for reasonable absence. In case of illness, a medical certificate is required. For absence which is unexplained or unsatisfactorily explained, deduction of marks will be resulted. A minimum attendance rate of tutorials/seminars/workshops is stated in respective course outlines.

### 3.2 Submission of Assignments

For most of the courses, students are expected to submit their assignments via Turnitin @ Moodle system. This system will detect any plagiarized materials. For some courses, teacher may require students to submit the hard copies of their assignments. Please follow the instructions according to the respective course outlines.

1. **Penalty for late submission**

   All assignments should be submitted on time. According to the Departmental regulations, late submission of assignment will receive the following penalties:

<table>
<thead>
<tr>
<th>Late for</th>
<th>% of marks to be deducted</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 day</td>
<td>10%</td>
</tr>
<tr>
<td>2 days</td>
<td>20%</td>
</tr>
<tr>
<td>3 days</td>
<td>30%</td>
</tr>
<tr>
<td>4 days</td>
<td>40%</td>
</tr>
<tr>
<td>5 days</td>
<td>50%</td>
</tr>
<tr>
<td>6 days</td>
<td>60%</td>
</tr>
<tr>
<td>7 days</td>
<td>70%</td>
</tr>
<tr>
<td>More than 7 days</td>
<td>No mark will be given</td>
</tr>
</tbody>
</table>
For re-submission of failed paper, this policy will not be applied. Students are expected to hand in resubmitted paper on or before the due date. No mark will be given to late paper unless prior approval is sought from the teacher of the course.

(2) **Penalty on late submission of assignment for re-assessment of failed paper**
If a student fails a particular paper, and if re-assessment is allowed by means of a resubmission of assignment, the student must submit the assignment for re-assessment on or before the due date. No mark will be given to late paper unless prior approval is sought from the teacher of the course.

3.3 **Academic conduct**
The University Regulations on academic dishonesty will be strictly enforced!
Please check the University Statement on plagiarism on the web: http://www.hku.hk/plagiarism/.

Academic dishonesty is behavior in which a deliberately fraudulent mis-representation is employed in an attempt to gain undeserved intellectual credit, either for oneself or for another. It includes, but is not necessarily limited to, the following types of cases:

(1) **Plagiarism**
   i. According to the HKU policy http://www.hku.hk/plagiarism/ “Plagiarism is defined as the unacknowledged use, as one's own, of work of another person, whether or not such work has been published."

   ii. The representation of someone else's ideas as if they are one's own. Where the arguments, data, designs, etc., of someone else are being used in a paper, report, oral presentation, or similar academic project, this fact must be made explicitly clear by citing the appropriate references. The references must fully indicate the extent to which any parts of the project are not one’s own work. Paraphrasing of someone else’s ideas is still using someone else's ideas, and must be acknowledged.

   iii. The following also constitute plagiarism: (i) copying past papers of seniors or classmates without proper referencing, (ii) submission of assignments with similar content by the same student to different courses can also be considered as self-plagiarism.
iv. Plagiarism is a serious offence in the academic world. This University takes plagiarism seriously. Academically, it is almost certain that the plagiarized work will receive a fail grade (and most likely a zero mark). There may also be disciplinary action against the student who commits the offence of plagiarism. A warning letter will be issued in case of minor plagiarism. In the more serious cases, the students concerned will be referred to the Vice-Chancellor for referral to the University Disciplinary Committee for disciplinary action (extracted from HKU website http://www.hku.hk/plagiarism/).

(2) Dishonesty in collaborative work
Where a candidate for a degree or other award represents his/her work as solely one's own when in fact it is the result of a joint effort of a group of persons constitutes dishonesty and will thus be penalised.

(3) Completing assignments for others
The department does treasure mutual support among students. Yet, it does not mean a student can complete assignment for another classmate. Even the act is of good intention, both students will be penalised for such act.

The relevant Board of Examiners may impose a penalty in relation to the seriousness of the offence. The relevant Board of Examiners may report the candidate to the Senate, where there is prima facie evidence of an intention to deceive and where sanctions beyond those in point 3.3(1) might be invoked.

3.4 Student-Staff Consultation Committee (SSCC)
Communication, formal and informal, between students and teachers is important for facilitating mutual understanding and nourishing mutual trust. In order to promote frank exchange and open communication between students and teachers, the staff-student consultative meeting is arranged at least once in each semester, as an open forum for sharing between students and teachers on different issues relating to students’ learning. Students are encouraged to bring up their different concerns in the meetings, while teachers can also share their views on related issues. These meetings are formally arranged. Informal exchange between students and teachers is also much encouraged.
